Come now Andrew N. Cox "movant"  
in this action Pro-Se ask this

"Facts"

At the beginning of 2014, I  
mailed to Five Government Agencies  
Freedom of Information Request.  
On June 4 2014 My Lawyer got a  
letter From the Appalachian Drug  
Task Force saying they had a  
File and would send it for  
\$104.84, My mother mailed them

(2)

A United States Postal Money Order on September 2 2014 For \$104.84. The Agency sent the File to My Lawyer Arturo Corso and in turn I received it on October 16 2014 at 7:30 pm here at the Hall County Jail. In it are documents that I have never seen and also have the Assumption My Trial lawyer never saw.

This document has to do with the Question of Seedlings vs. plants. Under Forachee U.S. Court of the 11<sup>th</sup> Circuit, a plant is a stem with a visible Root Ball. Now in My Trial the Expert witness called what he saw in the pictures seedlings. But what the agent sent to the DEA Lab was what they took to Another site and continued to water and grow so the seedlings would have Rootballs and their words THC.

So the Big Question For this Honorable Court is What is the evidence that

③

is presented to the Jury.

The seedlings that should have been pulled up the day of Confiscation and sent to DEA Lab or what was grown so to have THC and Rootballs.

I have the Documents to support this claim, But I have no way of copying here at the Jail, I will bring them with me when I come to court.

I ask this Court in the Name of God, Our Lord, to please view this knowing and True on this 19<sup>th</sup> Day of October 2014.
